

IT Webstore

Computer hardware, software and systems ... plus networking, installation and repair services

Projex IMC is a certified supplier of quality computer hardware, software and systems. Our IT webstore features a curated selection of products from leading brands such as HP, HP Enterprise, Dell, Microsoft and more. Not finding what you need? No worries ... we can work with you to specify, source and install a wide range of computer equipment and peripherals.

Setup Service: Technicians at Projex IMC power up your new computer, update system software (as needed) and perform a basic verification of hardware functionality.

Computer Networking Services: From initial site survey through post-implementation support — Projex IMC can help with all of your computer networking and business requirements.

Software Installation: Simply select the software package(s) you would like us to install when ordering hardware. We'll install and test the selected application(s) before shipping, pickup or delivery (software license included).

QuickShip Same Day Delivery!

Place your order by 12:00pm (M – F) ET and have qualifying product(s) delivered to your door by 5:00pm ET on the same day (for in-stock items) or next day (for items stocked in our Harrisburg distribution center). Delivery location must be within 25 miles of Projex IMC's Aliquippa office.
