

Digital Transformation as a Service™

Step-by-step digital business transformation ... On your platform ... at your pace ... supported by our on-demand experts

Our **Digital Transformation as a Service™ (DTaaS)** concept combines three major innovations within one game-changing solution:

-  **Focus:** Our cloud-based, open source software converts your website into a powerful, flexible, affordable dBusiness platform.
-  **Execute:** Our Integrated Management Center facilitates rapid, digital delivery of low cost professional and technical services.
-  **Accelerate:** Our talent solutions connect subject matter experts with clients, on-demand, through our Integrated Management Center.

The result? Our clients achieve strategic clarity, competitive advantages and optimized performance at 30 – 50% less cost, time and complexity vs. point software solutions and legacy consulting methods.

projexteam

The ProjexTeam™ dBusiness platform offers a modular, scalable, centralized base for managing digital transformation initiatives. Start small and add features as needed to execute your business strategy.

Digital Transformation as a Service (DTaaS):

Projex IMC's Digital Transformation as a Service solution reduces day-to-day operating costs, accelerates value-enhancing digital transformation initiatives and aggregates/preserves intellectual property (institutional knowledge), turning a former cost center into a valuable, transferrable asset. **The four standard configurations shown below include initial setup and training, the software platform and ongoing support at one affordable monthly fee.**

ProjexTeam™ Platform:

Convert your website into an integrated, modular, configurable dBusiness platform!

- One database
- Modular architecture
- Open source (GPL) codebase
- Advanced website and ecommerce management functionality
- Four standard configurations

Integrated Management Center:

Connects clients to remote subject matter experts ... on demand ... for efficient digital delivery of professional and technical services!

The Projex Integrated Management Center connects clients with project managers and subject matter experts — face-to-face, screen-to-screen, from anywhere — on-demand.

- Virtual offices/online workplace
- Extranet portal
- Collaboration tools
- Online training center (LMS)
- IT MSP service automation tools
- Project planning/activity tracking tools
- Back office (accounting) integration
- Talent/contract management
- Information resources

ProjexTalent™:

Accelerate the results of value-adding digital transformation projects!

We combine U.S. based project managers with skilled subject matter experts, providing an ideal mix of insight, oversight and affordability.

- Individual resources
- Department-as-a-Service™ solutions
- Complete project teams
